PRODUCT DESCRIPTION

Designer: Michele De Lucchi & Giancarlo Fassina

Artemide Architectural Tolomeo Paralume Outdoor LED Suspension

The Artemide Architectural Tolomeo Paralume Outdoor LED Suspension brings the Tolomeo language to overhead exterior applications. The pendant combines the familiar Ø52cm shade profile with a sealed diffusing capsule that houses the 20W LED source at 3000K. This arrangement produces a comfortable direct light that is well suited to dining areas, bar counters and covered outdoor lounges, while maintaining the recognisable Tolomeo character.

Designed for use under canopies, pergolas and other overhead structures, the Tolomeo Paralume Outdoor Suspension is particularly effective where interior and exterior spaces meet. It can echo Tolomeo forms used indoors while providing the resilience required outside. Delivered lumen output ranges from 858 to 1673 Lumens depending on shade material and finish, giving specifiers scope to control both appearance and brightness. The IP65 rating supports use in demanding environments, provided that installation follows the manufacturer guidance for outdoor applications.

The suspension is supplied as a body lamp and a separate shade, in spun white, woven dove grey or black. This modular approach makes it easy to align shades across the floor, suspension and hook variants, or to vary them by zone within a project.

As the official UK distributor, we can support you with the Artemide configurator and specification. Contact us at artemide@davidvillagelighting.co.uk.

PRODUCT SPECIFICATION

Light Source: 20W, 3000K, 858-1673 Lumens

IP Code: 65

Dimming: Non-dimmable.

Dimensions: Shade: Ø52cm
Shade Height: 36cm
Maximum Drop: 200cm
