PRODUCT DESCRIPTION

Designer: Daniel Rybakken

Luceplan Counterbalance LED Floor Lamp.

The Luceplan Counterbalance LED Floor Lamp was developed for the Counterbalance collection after the great success of the Counterbalance Wall Light among critics and the public. It harnesses the same adjustable aluminium head and also offers further adjustments thanks to a simple sliding mechanism on the stem, meaning the aluminium head can slide up and down the rod - the head locks into place at any given height to allow perfect positioning.

The head also includes a three step dimmer switch that allows the light intensity to be regulated in three stages: 0 percent, 50 percent, 100 percent. Making this light perfect for all of your needs. It makes an exceptional reading light.

Winner of the prestigious Compasso d'Oro ADI in 2014.
