PRODUCT DESCRIPTION

Designer: Daniel Rybakken

Luceplan Counterbalance LED Wall Light

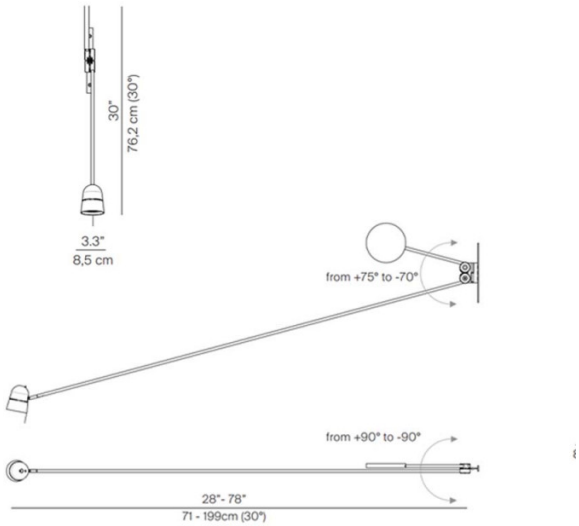

The Counterbalance LED Wall Light was the first project by Daniel Rybakken and still remains one of his most influential designs. This light replicates a sculptural mobile equipped with a fluid balancing system, the circular counterweight ensures the stability of the light source and guarantees the ease of adjustment. The aluminium head of the light can also be rotated, as well as the slender body, to create a warm direct light for your space. The Counterbalance LED Wall Light is easy to place, easy to adjust and requires no additional wiring. The head also includes a three step dimmer switch that allows the light intensity to be regulated in three stages: 0 percent, 50 percent, 100 percent. It truly is a must have for your is a must have addition to your living room, dining area or office.

Winner of the Red Dot product design award in 2013, the Elle Decoration International Design Award in 2013 and the internationally renowned Compasso D'Oro in 2014.

This light needs to be installed near a socket as it comes with a cable and plug.
