Original BTC Oceanic Pendant Light

The Original BTC Oceanic Pendant is a contemporary twist on an original design from the dockyards of early 20th Century Britain. The Oceanic pendants sleek powder coated dome diffuser mirrors the galvanised steel cage which contains the light source and gives the pendant authenticity and longevity.

The Oceanic pendant light is handmade and available in two sizes to suit a range of rooms and open plan spaces. Original BTC have manufactured the Oceanic pendant in four colours: basalt grey, putty grey, white and black to illuminate interiors with a vintage inspired elegance.
