PRODUCT DESCRIPTION

Designer: Piero Lissoni

Kartell Piuma Chair

Piero Lissoni's work on the Kartell Piuma Chair earned him the Red Dot Award/Best of the Best Award in 2017. The Piuma is a revolutionary Kartell product, utilising their moulding techniques and the use of a new material; the Piuma became an ultra-light and extremely durable piece of designer furniture. At just 2mm thick and barely weighing 2.2 kg, the Piuma is not just light and slender but extremely flexible, durable and weatherproof. This was the first product to be made by injection moulding a material containing carbon fibre, especially for a stylish and elegant product.

The Kartell Piuma Chair is durable, comfortable and stylish; the perfect choice for private and commercial settings. The chair can be found around a dining table, as a desk chair, in a meeting room, waiting room and in any hospitality environment. You can select from a choice of 6 colour options: white, grey, sage, mustard, rusty orange or black.
