LIGHTING STORIES

Effimera LED Floor Lamp by Prandina

The Effimera floor lamp is a contemporary and stylish lamp designed by the brand's founder Sergio Prandina in 2016. The lamp has two arms that cross over each other, beautifully dancing together to produce a delicate, modernistic aesthetic. The arms can be adjusted so you can direct the light where you need.

A functional lamp, the Effimera floor light has an integrated LED light source which is energy-saving and environmentally friendly. The shade hangs off the end of the lamp, emanating a far-reaching glow that is diffused and bright. This floor lamp is perfect for lighting the room and also as a reading/task light. Being completely versatile, this floor light can be used in many settings and is available in 2 colour finishes.

The Effimera LED Floor Light is available with either a white or black fabric lampshade on request. Please [contact us](#) for more information and prices.

Designer: Sergio Prandina
