PRODUCT DESCRIPTION

Designer: Arturo Alvarez

a-emotional light Tempo Vivace Pendant

The Tempo Vivace Pendant is designed by Arturo Alvarez and handcrafted in Spain. The illumination from The Vivace is softly diffused through the shade, offering a warm and inviting glow. The open bottom of the pendant allows for a downward directional light from below, perfect for illuminating surfaces such as kitchen islands and dining room tables. The sleek, elegant design fits seamlessly into modern interiors. Ideal for hanging in hallways or dining rooms, or in commercial settings such as restaurants and bars.

The Tempo Vivace Pendant is made from two overlapping layers of stainless steel mesh. This mesh is coated in silicone, making it easy to mould into organic-looking shapes. The material is pleated, reminiscent of a ballet dancer's skirt. It portrays movement and grace. This sense of movement is beautifully captured in The Vivace, as well as the other pendant in this collection, **The Andante**. Both pendants are designed to represent two instances generated by the same movement at different tempos. These pendants can be installed individually or together, giving them the adaptability to fit any space.
