## PRODUCT DESCRIPTION

**Designer:** Arturo Alvarez

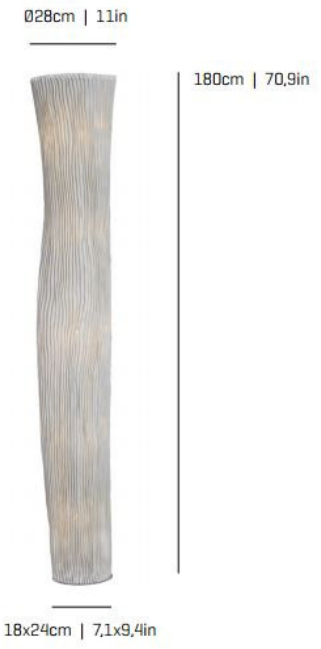

### a-emotional light Gea Floor Lamp

The Gea Floor Lamp was created by Spanish designer Arturo Alvarez for a-emotional light. Arturos' creations are known for their geometric forms which often reference nature. **The Gea Collection** reflects this theme, as it is inspired by Gaia – the primordial goddess, Mother Earth. The subtle curves of the lamp represent femininity and elegance. Each lamp is hand-made, making every curve on the structure unique to you.

The shade of The Gea Floor Lamp is created using SIMETECH®, a mesh made from stainless steel and silicone. SIMETECH® is easy to mould, fold, and cut, which results in creative freedom when making the lamp. The material and zip running down the length of the shade ensure that the lamp is easy to clean with a damp cloth and mild soap. The light emitted from within is diffused evenly throughout the structure, creating a soft and warm glow, perfect for creating ambient lighting in the bedroom or living room. An elegant and sophisticated design, The Gea Floor Lamp is the winner of the Good Design Award 2007.
