PRODUCT DESCRIPTION

Designer: Diego Fortunato

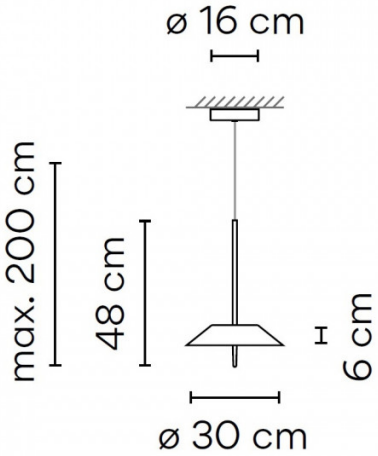

Vibia Mayfair LED Pendant Light

The Mayfair pendant was designed by Diego Fortunato and features a sleek lampshade and subtle diffuser which create a stylish aesthetic. Like the rest of the Vibia Mayfair collection, the pendant is inspired by a French 18th-century lamp called the bouillotte lamp which had several candlesticks and an adjustable flameproof shade.

The Mayfair pendant lamp creates a warm, diffused glow which is perfect for creating a nice atmosphere in your interior. The pendant light comes with either a metal shade, in copper, gold or graphite, or a methacrylate shade, in green or orange. The pendant is best used for accent lighting or can be used as a main light in small spaces or used in multiple in large spaces. Suitable for homes and public settings.
