wästberg

Wastberg Sempé W103S1 pendant lamp can be a single hanging shade or a combination of shades. They can be attached on a long rail for linear combinations or on smaller rails, where they can be joined together like Meccano to create polygons. The rail structure is thin enough to avoid the feeling of a heavy, hanging structure, and the lines are also softened by the round shapes of the shades. These exist in 7 very different tones – bright, soft, clear, dark – and can be arranged in any colour combination.

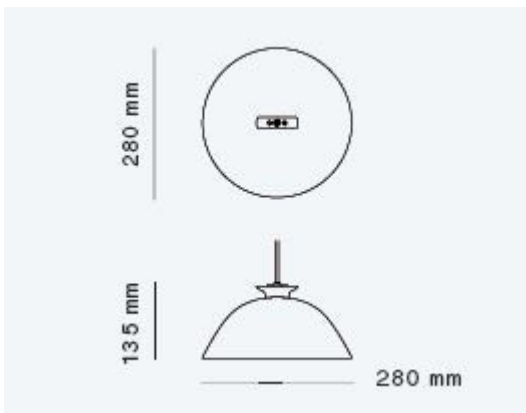

Glare-protecting Shade and Diffuser

Using LEDs to project the light directly downwards, the shade is not used as a reflector. This gives the option of painting the inside of the shade in the same colour as the outside, without destroying the quality of the light. The result is a beautiful and at the same time, playful effect as a small amount of light lights up the coloured inside of the shade.

Dimming: Dimmable

Dimensions:

Shade Height 13.5cm
Shade Diameter 28cm
Cable Length 3 Metres
Colour: Traffic White
Sulfur Yellow
Beige Red
Coral Red
Reed Green
Silver Grey
Jet Black
