### W151 Extra Large Pendant by Wastberg

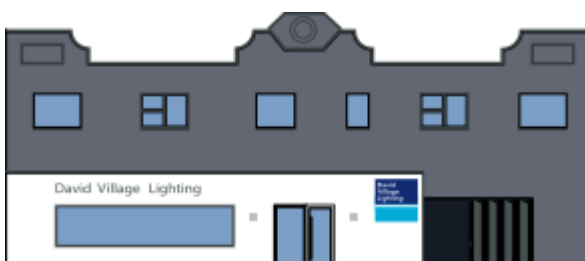

Based on the most basic of geometric shapes – the cone – the lamp comes in three variations: the tall and narrow, the archetypical and the low and wide. All three are super-sized, pushing the limits of manufactured, spun aluminium, yet fitting through a normal doorframe. The feature of this lamp is its size. Paired with careful control of the fine details and the paper-like matt finishes, the lamp is almost illusory; dream-like – when experienced in reality.

Using LEDs to project the light directly downwards, the shade is not used as a reflector. This gives the option of painting the inside of the shade in the same colour as the outside, without destroying the quality of the light. The result is a beautiful and at the same time, playful effect as a small amount of light lights up the coloured inside of the shade.

Choose between two colour temperature options, 2700K (warmest white) or 3000K (warm white).
