Astro Milo Wall Light

Astro Milo Wall Light is a ceramic wall light with a curved horizontal form. It casts light upwards and downwards, giving a generous wash of light across the wall.

Milo is carefully finished by hand and has a ceramic finish that can be painted to match an interior scheme. It is available in two sizes, Milo 300 and Milo 400, so it can be used as a single wall light, grouped in a cluster, or repeated in a row.

Milo uses one E27/ES lamp, sold separately, and can be dimmed when used with a compatible dimmable bulb. It is wired in, Class II double insulated, and suitable for mounting on flammable surfaces.

Best suited to hallways, staircases, corridors, bedrooms, living rooms, and darker corners.

PRODUCT SPECIFICATION

Light Source: 1 x Max 60W E27 Dimmable (Excluded)

IP Code: 20

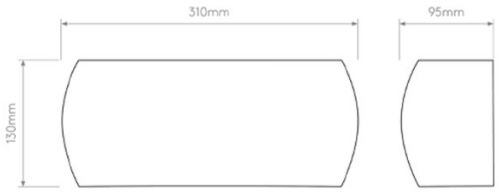

Dimming: Dimmable via main phase dimming.

Dimensions:

Milo 300:
