PRODUCT DESCRIPTION

Designer: Astro Design Team

Astro Kos II Round Exterior Ceiling Light

The Astro Kos II Round Exterior Ceiling Light is a compact surface mounted fitting with a clean, understated form that suits a wide range of spaces. Its simple cylindrical shape allows it to sit neatly against the ceiling without drawing too much attention, making it a practical option for bathrooms, porches, covered exterior areas and interiors where a more discreet ceiling light is needed.

Available in Matt White, Textured Grey, Textured Black and Polished Chrome, Kos II can either blend into the surrounding scheme or introduce a more defined finish depending on the setting. Its IP65 rating makes it especially versatile, allowing it to be used in exterior environments as well as bathroom zones 1, 2 and 3. This makes it a useful choice for projects that need a durable ceiling light with a straightforward architectural look.

Kos II uses one GU10 lamp, sold separately, and is dimmable when paired with a compatible dimmable bulb. Designed for ceiling mounting out of arm's reach and suitable for mounting on flammable surfaces, it offers a simple and dependable lighting solution for residential and commercial applications.
