Astro Parma 210 Wall Light

Astro Parma 210 Wall Light is an interior plaster wall light with dual emission. It has a white plaster finish that can be painted to match the surrounding wall.

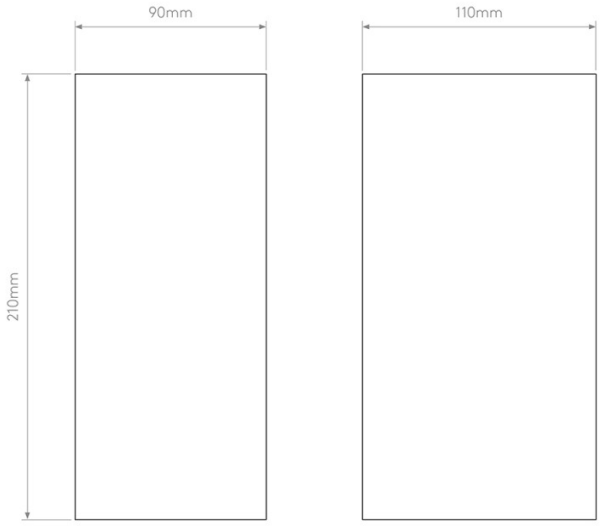

Parma 210 is made for vertical wall mounting and has a larger form than the Parma 110. The plaster body gives a simple, clean appearance once painted, making it useful where the fitting needs to sit quietly within the room.

Parma 210 uses two lamps, sold separately, and can be dimmed when used with compatible dimmable bulbs. It is wired in, Class I earthed, and suitable for mounting on flammable surfaces. For painting guidance, follow Astro's painting guide.

Best suited to hallways, bedrooms, living rooms, staircases, corridors, and interior up-and-down wall lighting.
