Astro Chios 150 Wall Light

The Astro Chios 150 Wall Light is a compact up and down wall light designed for both exterior use and bathroom settings. Its clean rectangular form and dual light output create a simple architectural effect, casting light both upwards and downwards to add atmosphere and definition to walls.

Available in textured black, textured grey and textured white, it can either blend into the surrounding scheme or add subtle contrast depending on the finish you choose.
Rated IP44, Chios 150 is suitable for outdoor walls as well as bathroom zones 2 and 3, making it a versatile option for a wide range of spaces. Whether used beside an entrance, along an exterior façade or within a bathroom, it provides a neat and practical lighting solution with a restrained contemporary look.

Chios 150 uses two GU10 lamps, sold separately, and is dimmable when paired with compatible dimmable bulbs. Made from zinc and suitable for mounting on flammable surfaces, it is a durable fitting for sheltered exterior and interior use. Please note this product is not suitable for installation within five miles of the coast.
