PRODUCT DESCRIPTION

Designer: Astro Design Team

Astro Serifos 170 LED Wall Light

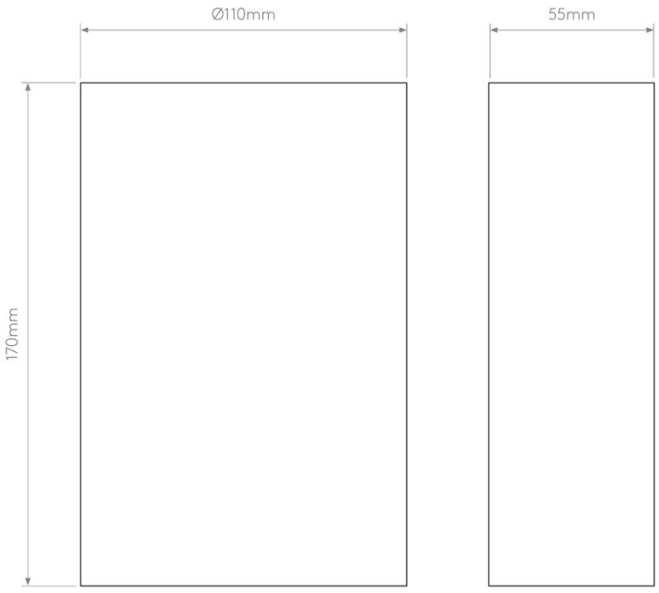

Astro Serifos 170 LED Wall Light is a classic half-cylinder interior wall light with a white plaster finish, integrated 3000K LED, and vertical wall-mount installation.

The Serifos casts a wash of warm light upwards and downwards, making it useful for corridors, living areas, and other interior spaces that need soft wall illumination. Its plaster finish can be painted to match an interior scheme, allowing the fitting to blend more closely with the surrounding wall surface.

The Serifos 170 LED is wired in, unswitched, and non-dimmable, with a Class I earthed construction and no separate driver required. For preparation and finishing guidance, follow Astro's painting guidelines before decorating the fitting. Most suited to corridors, living areas, hallways, bedrooms, and painted interior wall schemes.
