Astro Anton Wall Light

The Astro Anton Wall Light is an elegant bathroom fitting designed to complement mirrors and vanity areas. Its polished chrome base and straight arm support a white opal glass diffuser, which casts a soft, even glow. With its simple and timeless profile, Anton adds both function and sophistication to bathroom interiors.

Rated IP44, the Anton is suitable for installation in bathroom zones 2 and 3, where it provides both practical illumination and ambient light. It can be mounted vertically on either side of a mirror or placed above, ensuring balanced, flattering light that is well-suited for grooming or everyday use. The fitting is dimmable when paired with a compatible E14 lamp, offering flexible control of light output.

Built from durable mild steel and glass, Anton is engineered for long-term reliability while retaining its refined finish. Its combination of classic materials and contemporary simplicity makes it an excellent choice for residential or hospitality bathrooms.
