Astro Ascoli Triple Round Spotlights Ceiling Light

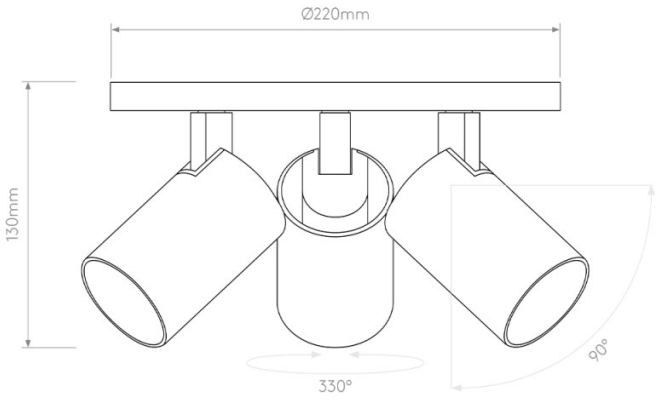

The Astro Ascoli Triple Round ceiling light is a versatile fixture that delivers both style and function in one clean design. Part of the popular Ascoli collection, it features three adjustable spotlights mounted on a circular ceiling plate, available in finishes of matt black, matt nickel, textured white or bronze. With its contemporary profile, the Triple Round suits kitchens, dining areas and living spaces where flexible, directional lighting is needed.

Each spotlight is mounted on robust knuckle joints that pivot smoothly, allowing the heads to tilt up to 90° and rotate 330°. This ensures you can direct light exactly where required, whether illuminating worktops, highlighting architectural features, or providing ambient brightness across a space. The fitting is dimmable when paired with compatible GU10 lamps, giving you full control over the mood and intensity of your lighting scheme.

Crafted from durable zinc, the Ascoli Triple Round is designed for longevity and ease of use. With its practical adjustability and subtle aesthetic, it can be used alone in smaller spaces or in multiples across larger rooms, making it a versatile option for contemporary interiors.
