Astro Pella 325 Wall Light

Astro Pella 325 Wall Light is a horizontal interior wall light with a white plaster finish, designed for wired-in wall mounting. Its broader plaster form gives it a simple architectural look, making it a useful choice where the fitting needs to feel part of the wall rather than a separate decorative feature.

The plaster body can be painted to match the surrounding surface, so the Pella 325 can sit quietly within a neutral scheme or be finished to suit a stronger wall colour. This makes it especially useful in spaces where the light needs to add shape and depth without introducing another material or finish. For suitable preparation and finish guidance, follow Astro's painting guidelines before decorating the fitting.

The Pella 325 requires a separate lamp and is dimmable, depending on the lamp selected, with no integrated switch. Its horizontal format works well as a soft layer of wall lighting in circulation spaces, beside furniture, or on plain plaster-finished walls. Most suited to hallways, living rooms, bedrooms, and pared-back interior schemes.

Please note, the Atro Pella 325 Wall Light is also available with an integrated LED light source, Contact us for more information and pricing.

PRODUCT SPECIFICATION

Light Source:	1 x Max 12W E27/ES LED (Excluded)
IP Code:	20
Dimming:	Dimmable via mains phase dimming.
Dimensions:	Height: 18cm Width: 32.5cm Depth: 8.5cm
