Astro Fosso Switched LED Reading Light

The Astro Fosso Switched LED Reading Light is a compact wall light designed for focused bedside and task illumination. Its clean, understated form and metallic finish options allow it to sit easily within bedrooms, guest rooms, and hospitality interiors without adding unnecessary visual weight. Available in Matt Nickel and Bronze, Fosso offers either a cooler contemporary finish or a warmer, more decorative tone.

Fosso includes an integrated LED light source and an adjustable head, allowing the beam to be directed where close task lighting is needed. The built-in switch makes it especially practical beside a bed or reading chair, while the warm 3000K colour temperature and CRI 90 output support comfortable, accurate illumination.

Designed for interior use, Fosso can also be installed in the bathroom zone 3. Made from zinc and suitable for mounting on flammable surfaces, it is a functional wired wall light for residential and commercial schemes that need discreet directional lighting. Best suited to bedrooms, guest rooms, hotel rooms, reading corners, and bathroom zone 3 task lighting.
