Astro Parma 110 Wall Light

Astro Parma 110 Wall Light is the smallest wall light in the Parma range. It has a white plaster finish that can be painted to match the surrounding wall.

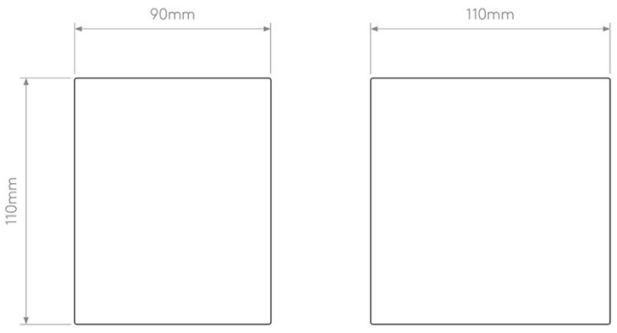

Parma 110 is made for vertical wall mounting and can be installed upwards or downwards. Its plaster body gives a simple, clean look once painted, making it useful where the fitting needs to sit quietly within the room.

Parma 110 uses one lamp, sold separately, and can be dimmed when used with a compatible dimmable bulb. It is wired in, Class I earthed, and suitable for mounting on flammable surfaces. For painting guidance, follow Astro's painting guide.

Best suited to hallways, bedrooms, living rooms, staircases, corridors, and compact interior wall lighting.
