Astro Terra 42 LED Bathroom Light

Astro Terra 42 LED Bathroom Light is a small recessed ground light with an Anodised Aluminium finish, made for bathroom and exterior floor installation. Its integrated 3000K LED gives a warm point of light from the floor, useful where low-level illumination is needed rather than a wall or ceiling fitting.

The Terra 42 can be used to mark out areas such as bathroom floors, patios, garden paths, or exterior floor edges. Its compact round form keeps the fitting visually simple once installed, while the IP67 rating makes it suitable for bathroom zones 1, 2, and 3, as well as exterior use.

The Terra 42 LED requires a Constant Current 700mA driver, which is not included, and dimming depends on the control gear selected. Astro recommends against driving over this ground light. Most suited to bathroom floors, patios, garden paths, exterior floor edges, and low-level ground lighting schemes.

PRODUCT SPECIFICATION

Light Source:	2W, 3000K, 169 Lumens
IP Code:	67
Dimming:	Dimmable via mains phase dimming.
Dimensions:	Depth: 9.5cm Fixture: Ø4.2cm Cut Out Hole: Ø4cm Cable Length: 150cm
