Terra 42 by Astro

A recessed, in-ground light by Astro, the Terra 42 is suitable for both bathrooms and exterior settings. Rated IP65 the light can withstand extreme weather conditions. The light is also weight tested and can hold a maximum drive over weight load of 800kg. The forward voltage per product is 3.05V. You can install the Terra 42 on your bathroom floor, parking bay, patio or garden area and its perfect for residential and commercial use. The light can be dimmed, but a separate dimmable driver needs to be purchased.

Requires a 700mA constant current driver, not included.
