Astro Pero Wall Light

Astro Pero Wall Light is a compact interior wall light with a white plaster finish, a vertical wall-mount orientation, and wired-in installation. Its small plaster form makes it a good option for areas where a wall light is needed without taking up much visual space.

The Pero's white plaster finish can be painted to match the wall or sit within the wider colour scheme. Its compact shape makes it an easy fit for hallways, alcoves, bedrooms, and smaller living rooms, where a wall light needs to be useful without feeling too prominent. For preparation and finishing guidance, follow Astro's painting guidelines before decorating the light.

The Pero is unswitched and dimmable when used with a suitable dimmable lamp, with a plaster body that can be mounted on flammable materials. Its compact size and paintable finish make it well-suited to repeat placement along a wall, either as a single fitting in a smaller room or as part of a wider interior lighting scheme. Most suited to hallways, bedrooms, living rooms, and compact interior wall-lighting schemes.

PRODUCT SPECIFICATION

Light Source:	1 x Max 3W G9 LED Dimmable (Excluded)
IP Code:	20
Dimming:	Dimmable via mains phase dimming.
Dimensions:	Height: 10cm Width: 7cm Depth: 10cm
