Astro Salerno Exterior Wall Light

Astro Salerno Exterior Wall Light is a wired-in vertical wall light for exterior and bathroom use, available in Natural Brass and Textured Black finishes.

The acid-etched glass diffuser gives the Salerno a softer appearance than a clear-glass exterior fitting, while the narrow brass body keeps the profile simple on the wall. It is unswitched, dimmable depending on the lamp selected, and suitable for domestic or commercial settings.

With an IP44 rating, the Salerno Exterior Wall Light is suitable for exterior spaces and bathroom zones 2 and 3. It is not suitable for mounting on flammable materials, and Astro states that it should not be installed within five miles of the coast. Most suited to porches, entrances, patios, bathroom walls, and exterior wall-lighting schemes away from coastal environments.

PRODUCT SPECIFICATION

Light Source:	2 x Max 5W E14 LED Dimmable (Excluded)
