Astro Tivola LED Exterior Wall Light

Astro Tivola LED Exterior Wall Light is a compact exterior wall light with an integrated 3000K LED, a round wall-mounted form, and an IP65 rating. Made from aluminium, it is available in Textured Black, Antique Brass, and Textured Grey finishes.

Rather than acting as a main exterior wall light, the Tivola is for the smaller points around a building that still need guidance after dark. Use it by a step, doorway, patio edge, or garden wall, where its compact, round form can sit close to the surface and give light without the bulk of a lantern.

The Tivola requires a Constant Current 700mA driver, which is not included, and dimming depends on the control gear selected. Astro states that it is not suitable for installation within five miles of the coast. Most suited to garden walls, entrances, patios, pathways, bathroom walls, and low-level exterior wall-lighting schemes.

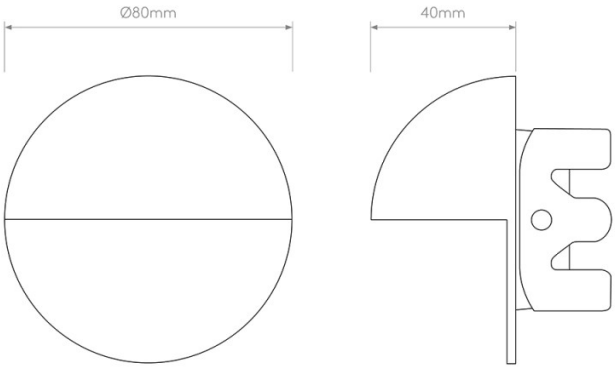

PRODUCT SPECIFICATION

Light Source: 2W, 3000K, 82 Lumens

IP Code: 65

Dimming: Dimmable when dimmable driver is installed.

Dimensions: Shade: Ø8cm
