PRODUCT DESCRIPTION

Designer: Giovanni Barbato

Axolight Hoops LED Ceiling Light

The Hoops Ceiling Light is an instantly recognisable lamp with a distinct, flowing form. Designed by Giovanni Barbato for the Italian company, Axolight, Hoops features lines that dance around the light source. When illuminated, the integrated LED emits a downward light, while the metal rods cast a mesmerising play of shadows onto the surroundings. Curved metal rods create the illusion of a ribbon suspended in the air. The Hoops Ceiling Light is available in two sizes, Hoop 2 and Hoop 3, and in three luxurious finishes: Gold, White or Black.

The decorative aesthetic of the Hoops Ceiling Light suits a range of interiors, whether residential, business, or commercial. The choice of colours allows you to match the perfect light to your decor. Whether installed as a standalone or in multiples for a balanced display, the Hoops Ceiling Light adds a decorative touch that will elevate your interior. Its dimmable functionality allows users to adjust the brightness of the light to create an atmosphere that matches any mood.

The Hoops 2 Ceiling Light is also available in black. Contact us for more information.
