PRODUCT DESCRIPTION

Designer: Manuel Vivian

Axolight Virtus LED Pendant

Italian designer Manuel Vivian created the Virtus Pendant for lighting brand Axolight. The pendant features a discreet silhouette, with a tubular body measuring 70cm long. Vivian utilises linear simplicity to create pure elegance, blending functional lighting with a graceful design that enhances any space with style and sophistication. The pendant is available in 15 finishes, allowing it to suit muted settings or to provide a splash of colour in maximalist interiors.

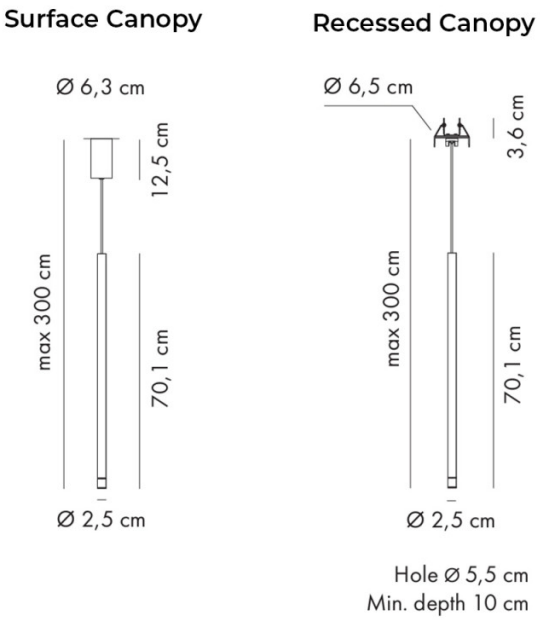

The tubular form emits a focused beam of light, perfect for use above a kitchen island, bar, or work surface. Install multiple pendants in a row to provide even light over a long surface. Suitable for both domestic and commercial settings, the Virtus adds an understated sense of refinement to any environment. In large areas such as hotel lobbies or entrance halls, grand displays can be created by hanging clusters of lights at various heights for an expressive composition.

The Virtus Pendant is available in fifteen bold finishes, including White, Blue, Red, Green, Yellow and Black.

Please note, the Virtus with a recessed canopy is not dimmable as standard; a dedicated PSU driver is required. Please contact us for more information and pricing.
