PRODUCT DESCRIPTION

Designer: Manuel Vivian

AX20 Suspension by Axolight

The pendant version of the AX20, a collection designed by Manuel Vivian for Axolight. Vivian is known for his artisan production processes as his designs have no limit to experimentation. The AX20 light has a chrome plated finish, making it a stunning lighting solution for your home or business. You can install a single suspension, or compliment it with more AX20 suspensions and create your own cluster of lights; whether above the kitchen counter or dining table or in a reception area or conference room. AX20 lights are primarily dimmable via mains phase dimming, and take a retrofit G9 lamp. The light is diffused downwards through a satin finish aluminium reflector inside the shade.

The [AX20 Collection](#) further includes a floor lamp and two wall lights, a short (also a ceiling light) and long arm version; so that you can select the perfect light for you.

PRODUCT SPECIFICATION

Light Source: 1 x max 60W G9 (excluded)

IP Code: 20

Dimming: Dimmable via mains phase dimming.

Dimensions: Ø 9 cm shade
16 cm shade height
