PRODUCT DESCRIPTION

Designer: Manuel Vivian

AX20 Wall Light by Axolight

Part of the AX20 Collection, the AX20 GR wall light has a longer arm than its sibling, [AX20 PI](#). Designed for Axolight, Manuel Vivian created this collection which is a testament to his unique approach towards production process. With a chrome finish and a satin finish aluminium reflector, the wall light emits a directional light. You may adjust the light, at three separate points along its body; you may tilt the shade and arm up to 100°, while the entire light can rotate up to 180°. A wall light for both residential and commercial environments, and in hospitality. You may install the AX20 GR in the bedroom, or living room and have the perfect lighting solution for your reading.

The [AX20 Collection](#) includes a floor lamp, suspension light and a smaller ceiling/wall light.
