## PRODUCT DESCRIPTION

**Designer:** Ichiro Iwasaki

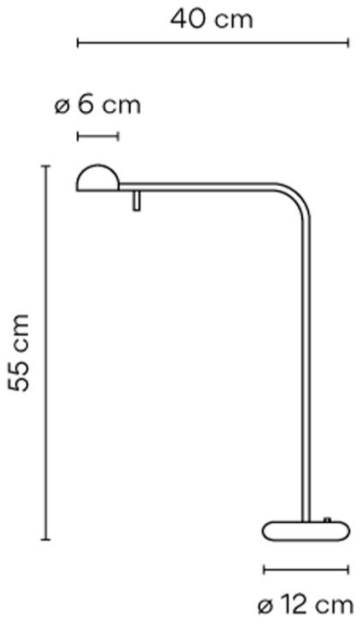

### Vibia Pin LED Table Lamp

The Vibia Pin Table Lamp was designed by Ichiro Iwasaki, to provide a functional but ambient reading light. This lamp is defined by its geometric forms and features a slender minimalist structure grounded by a circular bold base with a rounded adjustable lamp head. The LED light source is filtered through a polycarbonate diffuser which results in a softer glow. By granting you the ability to adjust the Pin Table Lamp head, you can decide between a more directed task light or an indirect ambient glow. The weighted base of the Vibia Pin Table Lamp also features an integrated on/off switch.

This LED Table Lamp is a contemporary take on a classic reading lamp, crafted from high-quality metal and available in four sleek matte colours; white, black, cream and green. Vibia Pin is a beautiful addition to workspaces, reading nooks, hotels, libraries and even bedrooms.
