PRODUCT DESCRIPTION

Designer: Ernesto Gismondi

Artemide Effetto Square LED Wall Light

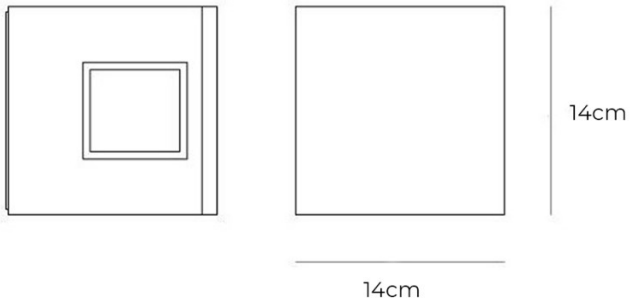

The Artemide Effetto Wall Light is the ideal exterior wall light for your home or business, rated IP65, equipped with an integrated LED light source. Effetto is available with either a single or double beam, a large or narrow beam and two finishes, allowing you to choose between either a white grey or rust colour option. The large beam comes to 90°, while the narrow beam comes to 15°. Although non-dimmable, the luminaire emits a comfortable illumination, with a warm colour temperature (3000K).

Designed by Ernesto Gismondi, the Effetto Wall Lights can create a stunning effect on the front of your business or home, especially in gardens, entrances and driveways. For the single beam, the light is projected down the wall, whereas for the double, the light is emitted through opposing sides of the quadrate.

Mixed beam and four beam options are also available, please contact us for more details and pricing.
