PRODUCT DESCRIPTION

Designer: Space Copenhagen

Copenhagen SC7 Pendant Light by &Tradition

Designed by Space Copenhagen, the Copenhagen SC7 pendant epitomises their own design style that they call Poetic Modernism. With their style, the designers always seek to balance opposites, creating contrasts that combine together to produce interesting and functional designs. The Copenhagen SC7 pendant light contrasts an industrial metal fitting with a delicate and classic lampshade, making a light that looks contemporary and chic.

A very versatile pendant light, it can be used in many rooms but looks particularly good in lounge, dining and kitchen areas over a table as a feature light or part of a series of lights. The diffused downward light will cast a nice glow in your space and the choice of multiple colours means you can find the perfect finish for your room. Match with other products and other sizes of the Copenhagen pendant lamp from the [&Tradition Copenhagen collection](#) to create a seamless lighting scheme.
