Fontana Arte Avico Pendant Light

The Fontana Arte Avico Pendant Light, designed by Charles Williams in 2006, is a show-stopping statement piece that combines bold scale with minimalist elegance. Available in two expansive sizes—120cm and 160cm in diameter—the Avico commands attention in any setting. Its clean, spherical form is finished in timeless black or white, with a white interior that optimises light reflection, producing bright and evenly distributed illumination. Whether suspended in a grand entryway, an open-plan living area, or a commercial space, the Avico's bold presence elevates its surroundings.

For those desiring a softer glow, an optional closing disc with a telescopic stem can be added to reduce glare and create a more diffused lighting effect. The chromed metal frame, polyethylene diffuser, and blue fabric power cable all contribute to the pendant's striking contemporary aesthetic. Designed for both residential and commercial applications, the Avico is ideal for creating a dramatic yet versatile lighting solution that leaves a lasting impression.
