PRODUCT DESCRIPTION

Designer: Joan Gaspar

Marset Aura LED Wall Light

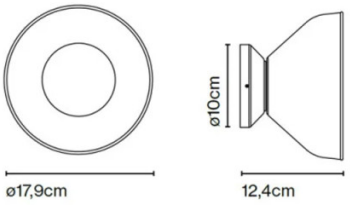

Marset Aura LED Wall Light is a glass wall light by Joan Gaspar, inspired by the familiar shape of a traditional glass carafe. The blown glass shade sits close to the wall and allows the light to spread softly across the surface, giving the fitting a clear presence when switched on and off. Its compact circular form makes it easy to use as a single wall light, in pairs, or repeated through a hallway or hospitality interior.

The Aura is available in Transparent, Opal, and Transparent Smoked finishes. Transparent keeps the fitting light and open, Opal gives a softer and more even appearance, and Transparent Smoked adds a darker tone to the glass. The structure is black on the Transparent and Transparent Smoked versions, while the Opal version is supplied with a white structure.

This With Canopy version is hardwired and dimmable via Triac dimming, with a warm 2700K integrated LED. The canopy gives the fitting a slightly deeper profile than the no-canopy Aura format, but it still remains neat on the wall. Most suited to hallways, stairways, bedrooms, living rooms, dining spaces, hotels, restaurants, and interiors where a compact glass wall light can bring a soft wash of light to the wall.

PRODUCT SPECIFICATION

Light Source:	12.3W, 2700K, 389 Lumens
IP Code:	20
Dimming:	Dimmable via Triac dimming.
Dimensions:	Shade: Ø17.9cm Depth: 12.4cm Wall Plate: Ø10cm
