PRODUCT DESCRIPTION

Designer: Joan Gaspar

Marset Ginger 20C LED Ceiling / Wall Light

Marset Ginger 20C LED Ceiling / Wall Light is the smallest size in Joan Gaspar's Ginger ceiling and wall range for Marset. The design uses a thin circular diffuser with the light source hidden behind it, so the light is reflected onto the wall or ceiling rather than shining directly outwards. In the wood finishes, layers of wood and paper are pressed together under high pressure to create a slim shade with a warm surface finish.

The 20C size is useful in smaller areas where a shallow wall or ceiling light is needed without taking up too much space. It can be used in hallways, bedrooms, alcoves, entrances, and lower-ceiling rooms, or placed beside larger Ginger C sizes as part of a linked wall arrangement. The finish options include wood and metal versions, with Oak, Wenge, Oak / White, Wenge / White, Brushed Brass, Black / White, Mauve, Sand, and Stone Grey.

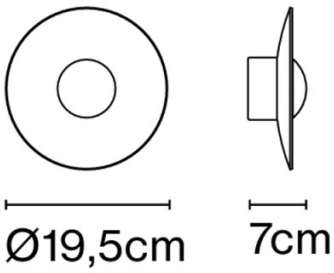

The integrated 2700K LED gives a warm reflected light with no exposed lamp. The fitting is dimmable using leading edge and trailing edge dimming, and can be installed on either the wall or the ceiling. Most suited to hallways, bedrooms, entrances, living spaces, hotels, restaurants, and interiors where a compact reflected light can be used on its own or grouped with other Ginger C fittings.

Please Note: To install the Marset Ginger LED Ceiling / Wall Light in linked arrangements of two or three fittings, joining accessories may be required. Please contact us for more information and pricing.

PRODUCT SPECIFICATION

Light Source:	5.72W, 2700K, 161 Lumens
IP Code:	20
Dimming:	Dimmable using leading edge and trailing edge (Triac).
