PRODUCT DESCRIPTION

Designer: Johan Van Hengel

Folded Shelves by Muuto

The Muuto Folded Shelves are made from a single sheet of metal, carefully folded in such a way to create small pockets in order to hold and store your belongings. The Folded shelves are further accessorised with a single bolt in one corner and two hooks to hang objects. You can use the shelves in just a decorative way or also choose to make it functional by storing and organising anything from magazines, clothing, toys or even plants.

Suitable to be mounted in any room, from the hallway to the living room, kitchen and bedroom. Johan van Hengel, the designer, wished to transform everyday objects into a more functional and sophisticated product, producing an experimental and sculptural piece to create a unique aesthetic. The Folded is available in three sizes and 5 colour options to choose from, allowing them to fit into a range of contemporary interiors.

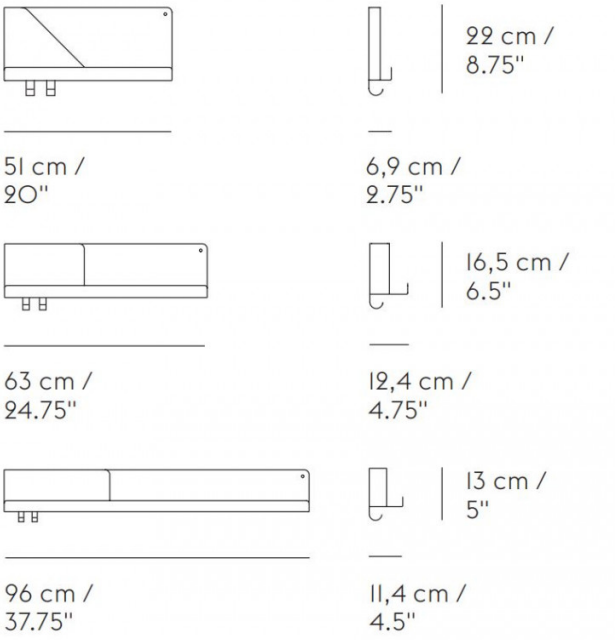

PRODUCT SPECIFICATION
