The Panthella 250 Table Lamp is the smaller version of the [Panthella table lamp](#), which was first designed by Verner Panton in 1971. The Panthella 250 Table Light creates a comforting, soft glow as the light reflects off the base and out of the shade. The table light also comes with a dimmer switch and a handy timer function, which can automatically switch off the lamp after either 4 or 8 hours. The spectacular, curved, and natural design makes this lamp a statement piece as well as a functional light that can be used in many spaces. The small size makes it suitable for window sills, shelves, tables and many other tiny surfaces to suit your needs.
