PRODUCT DESCRIPTION

Designer: Vilhelm Lauritzen

Louis Poulsen VL 38 Table Lamp

The VL 38 Table Lamp was originally designed in the 1930s by Vilhelm Lauritzen for the Radiohuset building in Copenhagen. Louis Poulsen then started selling the table lamp after World War II, being a popular and iconic light that has lasted to the modern day. The lamp emits a soft and comfortable light that can be directed where you need as the shade is adjustable.

The Louis Poulsen VL 38 LED Table Light is available in a white or black finish and has a beautiful brass stem, which is elegant and sophisticated. The table light comes with an integrated LED light source and also has a 2-step dimmer switch on the base so you can create the atmosphere you want. Use on tables, desks or side tables either as a chic reading/task light or as a general ambient light.
