## PRODUCT DESCRIPTION

**Designer:** Oki Sato

### Louis Poulsen NJP Floor Lamp

The Louis Poulsen NJP Floor Lamp was designed by Oki Sato and is a new interpretation of the classic silhouette and function seen in the renowned **Anglepoise** lamps. The angle of the shade and arm can be adjusted to provide a very handy light for reading or tasks. The NJP Floor Lamp comes with an integrated LED light source with the choice between a 2700K (warmest white) or a 3000K (warm white) colour temperature. The floor light also has a switch with 2 dimming options and a timer function that can automatically switch off the lamp after 4 or 8 hours if needed.

A very versatile and functional luminaire, the NJP Floor Lamp is available in 4 lovely and subtle colours, making it perfect for many settings and interiors. You can use it in your lounge for a cosy, warm atmosphere, or in your office for an effective working light. You can also pair with other lights from the **Louis Poulsen NJP Collection** for a consistent lighting scheme throughout your space.
