PRODUCT DESCRIPTION

Designer: Vilhelm Lauritzen

Louis Poulsen VL 38 LED Floor Lamp

Based on a design by Vilhelm Lauritzen from the 1930s, the Louis Poulsen VL 38 LED Floor Lamp has a lovely brass stem that leans slightly, creating an interesting and refined silhouette. The floor lamp has a rounded lampshade, which helps emit a soft and cosy light. The shade can also be tilted so you can direct the light flow where you need, whether you want a light for reading or a warm glow to create a nice ambience.

The VL 38 Floor Light has an integrated LED light source, which is long-lasting and can also be dimmed thanks to the 2-step dimmer switch included on the cable. The floor light is available in a white or black finish, which makes it suitable for many interiors, both at home and in professional settings.
