Fritz Hansen Suspence Pendant

Inspired by movement translating into design, the Fritz Hansen Suspence Pendant was designed by Gamfratesi in 2013. The pendant is created from pulling aluminium, creating a rounded shade that has an elegant and classic silhouette. The top of the Suspence shade accentuates this pulling technique as it tapers into a little tip. The shade has an infinity diffuser fitted in the bottom, which creates a glare-free soft glow that also creates an illusion of infinite depth.

The Suspence Pendant is available in 2 sizes and a range of different colours, so you can find the perfect fit for your space. The downward-directed light makes this pendant light great for putting over tables and surfaces, and also works well as the main feature light of the room. Wonderful for both homes and commercial spaces, this light can be used in many different types of rooms. Put in a row or cluster to make a real impact.
