PRODUCT DESCRIPTION

Designer: GamFratesi

Fully Upholstered Beetle Dining Chair by Gubi

Designed by design duo GamFratesi, the Beetle dining chair is one from a whole Beetle collection made in partnership with Gubi. As the name suggests, the designers took direct influence from the beetle, inspired by the anatomy and appearance of the insect. Creating a chair with curved forms, this dining chair embodies its shape and the legs visually represent how a beetle dynamically moves in space. A truly versatile and comfortable chair, with many designs and colours to choose from, the Gubi Beetle chair can be used in many settings from home to workplace.

This chair is also available in front upholstered, seat upholstered or unupholstered versions and has five different base finishes—Antique Brass, Black Chrome, Black Matt, Brass Semi Matt and Chrome. A massive variety of fabrics/textiles, colours and patterns manufactured by Kvadrat, Dedar and Backhausen amongst many others, are also available for your unique choice of upholstery.
