Innermost Bracket LED Wall Light

The Innermost Bracket wall light is a streamlined LED fixture designed for modern interiors. Its minimalist form allows it to integrate seamlessly into a range of spaces while providing powerful and efficient illumination. Crafted from aluminium, Bracket has a subtle, low-profile design with a 6mm visible section when embedded, making it an ideal solution for those seeking a discrete lighting option. Whether for accent lighting in residential settings or as a functional wall light in commercial interiors, Bracket combines elegance with performance.

Bracket uses a high-quality integrated LED source, delivering an impressive 1150 lumens at 3000K. With its dimmable feature, the Bracket light offers flexibility in brightness to suit various applications and atmospheres. Available in a clean white finish, this light can also be customised in other colours on request, allowing it to adapt perfectly to any decor. Innermost's commitment to craftsmanship and innovation is evident in this timeless piece, which balances functionality and aesthetic appeal.
