PRODUCT DESCRIPTION

Designer: Davide Groppi

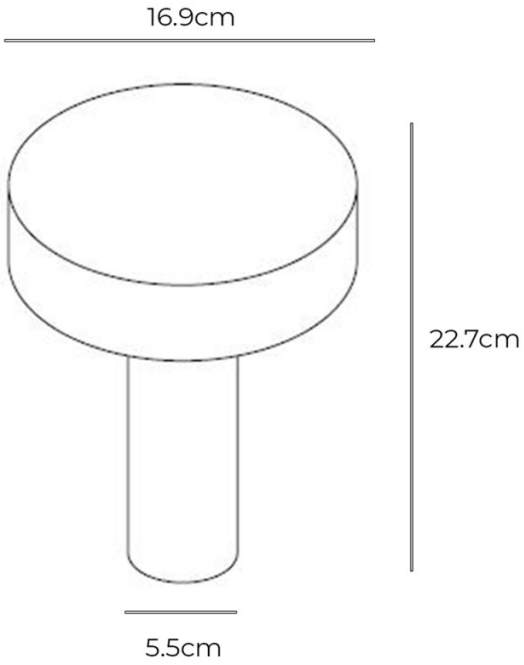

Davide Groppi PoPuP LED Portable Lamp

PoPuP LED Portable Lamp was designed by Davide Groppi in 2016. Groppi created this innovative portable lamp to blend light and music at any place or time to accompany you during unforgettable moments. PoPuP LED Portable Lamp utilises LED technology and produces an indirect light which is suitable for a dining table or setting an ambient atmosphere.

PopUp is a portable table lamp with an integrated 5W Bluetooth audio speaker, producing dynamic and excellent-quality sounds. The light and sound can also be enjoyed separately and together. It attaches magnetically to a circular, slim base. PoPuP has a rechargeable battery with a charger included and provides up to 12 hours of light and up to 30 hours of audio at medium volume if the light is switched off.
