PRODUCT DESCRIPTION

Designer: Alex Fernández Camps & Gonzalo Milá

Garota A/01 LED Outdoor Wall Light by Bover

The Garota LED outdoor wall light is part of the [Bover Garota collection](#), an outdoor range that was released in 2015. The lampshade of the wall light is inspired by a sea urchin's shell, with the textured material and the spherical shape resembling it. The shade is made from synthetic fibre which is recyclable and non-toxic, being environmentally friendly and sustainable, caring for our natural world.

The included LED light source is encased by an inner globe, which emits a soft, diffused glow, creating a welcoming atmosphere in your outdoor area. The Garota LED outdoor wall lamp can be used to line your patio area, as a welcome home light by your door or as an atmospheric light for your garden and many more places to suit your needs. The beautiful wall light lends a rustic and natural touch to your outdoor area and is **available** with either a **natural white or graphite brown metal structure** and an **ivory white or brown shade**.
