Bon Jour LED Table Lamp by Flos

The Bon Jour table lamp, designed by Philippe Starck, is the epitome of timeless elegance and high-technology dematerialisation. With a body that is ethereal, pure and almost immaterial, the table lamp casts a pool of warm light – perfect for a bedside table or desk light. The Bon Jour's naked, transparent base can be customized with a variety of interchangeable finishings and materials, expressing personal taste.

The base comes in a choice of four colours; chrome, matt chrome, matt white and polished copper and can be have a crown added in the following colours and finishes: transparent, yellow, amber, smoke, fabric and rattan.

The Bon Jour collection of table lamps also includes a smaller [portable version](#) and the [Bon Jour Versailles](#) with a decorative base.
