PRODUCT DESCRIPTION

Bega 99560 bollard large LED, available in a graphite or silver finish. Bollards for the glare-free flat beam illumination of ground surfaces. These luminaires distribute their light into the width of the space and are characterised by a high degree of illuminance on the surface to be illuminated. The luminaires are particularly suitable for surfaces and paths near the luminaires.

Cast aluminium, aluminium and stainless steel. Safety glass with optical texture. Reflector made of pure anodised aluminium.

BEGA bollards are bolted with a mounting plate onto a foundation provided by the customer or an anchorage unit made of hot-dip galvanised steel. The mounting system can be used to align the luminaire.

Anchorage units also available. Please contact us for more details.
