PRODUCT DESCRIPTION

Designer: Oki Sato

Wastberg W132 Nendo T1 LED Table Lamp

The Wastberg Nendo LED Table Lamp was designed by Oki Sato, a Japanese designer and architect, and is a clear expression of his cheerful take on minimalism. This simple design disguises an impressive lighting solution that can be easily personalised by the user. The Nendo Table Lamp is made by assembling the three parts: shade, base and the body. These parts can be rearranged and it can be transformed into different typologies. Not only can the shade be switched out (available as either a cone, a sphere or a cylinder) but the height is also easily adjustable by using the wheel attached to the body of the lamp.

The glare-protection shade and diffuser mean the lamp produces a smooth and pleasant light that is emitted into the room. This is a perfect lamp for your bedside table, next to your sofa or on the kitchen counter, to help illuminate your space without generating a harsh or clinical environment.

PRODUCT SPECIFICATION

Light Source: 12.6W, 2700K, 1082 lumens

IP Code: 20

Dimming: In-line dimmer on the cable.

Dimensions: 52.7cm height
28.5cm shade diameter
330cm cable length
