PRODUCT DESCRIPTION

Wastberg Lindvall w124 Table designed by Jonas Lindvall.

The w124 lindvall family of lights derives from experimenting with the influence that different materials have on the emotional qualities of the light they reflect. For example copper brings beautiful, deep warmth to the light. With these classic materials as a starting point, creating an archetypical lamp, inspired by its predecessors - the oil lamp, the kerosene lamp or even candle sticks - came naturally. A light fixture, designed to direct the light downwards, but also to help create an ambiance in a room. During the process, a mechanical feature emerged - a way to join the lamp shade together - that made the lamp stand out, if ever so slightly, from the crowd.

PRODUCT SPECIFICATION

Light Source: 2x E14 40W max Excluded

Dimming: On/off switch

Dimensions: 34 cm height
24 cm shade diameter
280 cm cable length
